

ABOUT PDFVAULT

A smarter, more secure place for your PDFs.

PDFVault is the all-in-one workspace for everyday document work — built by Content Clicks LLC to take the friction out of editing, converting, and protecting your files.

Documents shouldn't be complicated. PDFVault brings the tools people need for everyday document work — converting, editing, signing, compressing, and everything in between — into one easy-to-use website. No downloads, no steep learning curve, no unnecessary steps between you and the file you need.

We're continually building and refining the toolkit based on what our users actually need, and we handle every file with the same care we'd want for our own — processed in memory, never read, and never sold.

<icon> Privacy by design	<icon> Free core tools	<icon> Built to last
Uploaded files are processed in memory, not stored, unless you choose to save them.	Merge, split, compress, convert, rotate, unlock, and watermark — no account required.	A toolkit that keeps growing, shaped by feedback from the people who use it.

WHAT WE OFFER

Every tool you need for PDFs, in one place.

All of our core tools are 100% free and easy to use — get to your result in just a few clicks.

Edit & Sign	Convert to PDF	Compress	Convert from PDF
Mark up, fill in, and sign documents	Turn Word, Excel, images, and more into clean PDFs.	Shrink file size without losing document quality.	Export PDFs back to editable Word, Excel, or image files.

right in your
browser.

...and more, with new tools added regularly

HOW IT WORKS

From upload to done, in three steps.

1	2	3
Bring in your document Upload from your device, or import directly from Google Drive or Microsoft OneDrive.	Make it yours Edit, convert, compress, protect, organize, or sign it with the tools you need.	Save it to your vault Keep the latest version in your personal document library, ready whenever you need it again.

TRUST AND SECURITY

Protecting your files, every step of the way.

We use industry-standard security measures, including TLS encryption in transit and hashed passwords, and we never sell your personal data. The contents of your uploaded files are never collected — they're processed in memory and cleared once your session ends, unless you choose to save them to your account.

TLS Encrypted

Hashed Passwords

GDPR Aligned

We Never Sell Your Data
